# PROJECT OVERVIEW

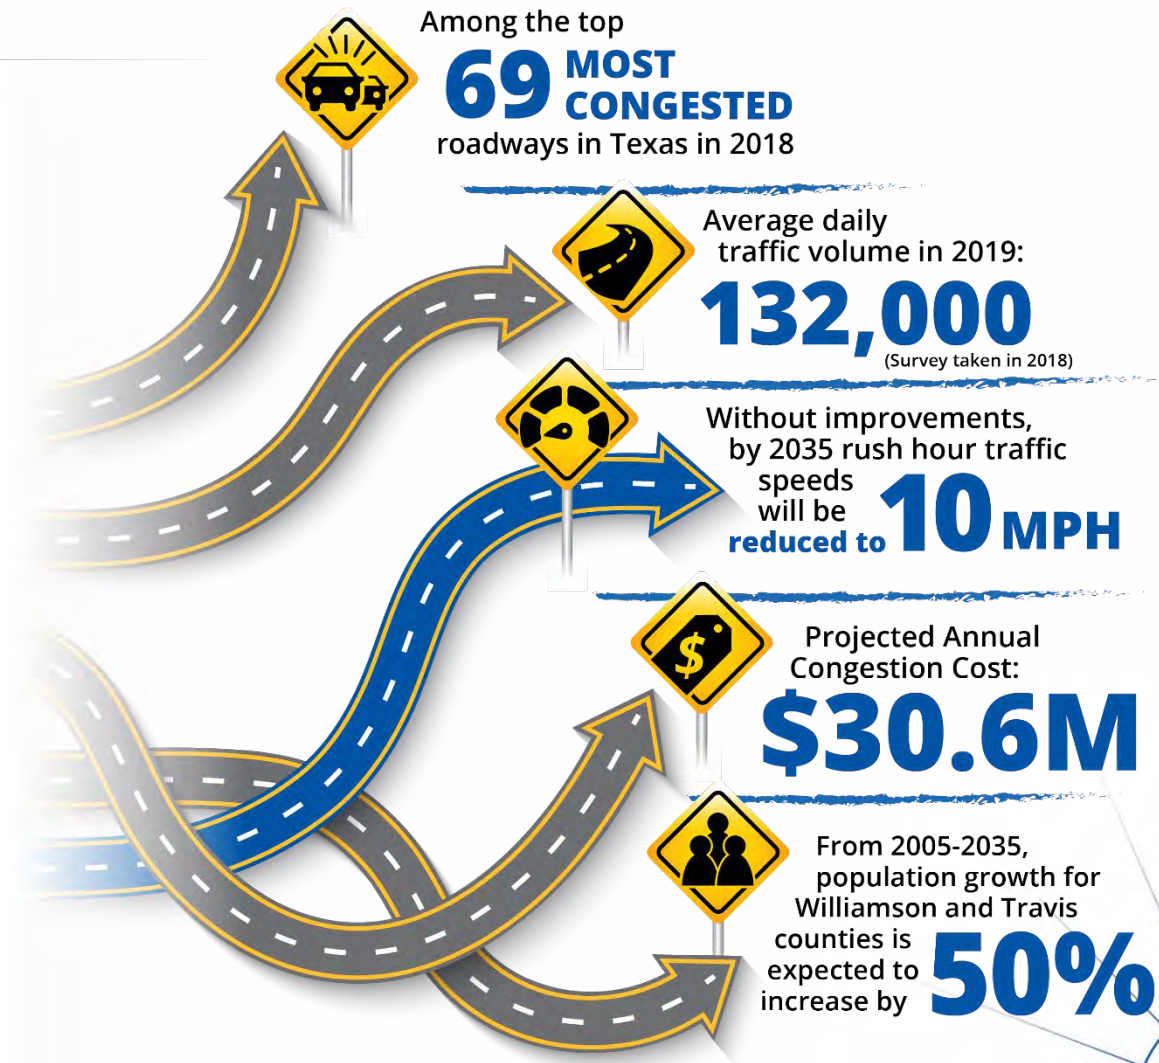

# Presenter

Pat Pluenneke  
Project Director

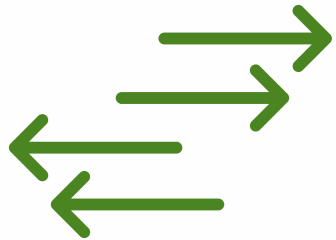

- Facilitate **congestion management** in the corridor
- Provide a **reliable transit route**
- Facilitate **reliable emergency** response

- **Project Limits:**  
SH 45 to MoPac/Loop 1
- **Project Length:**  
9 miles on US 183
- **Total Project Cost:**  
\$612 Million
- **Project Status:**  
Construction in progress

The Central Texas Regional Mobility Authority is bringing mobility improvements to US HWY 183 by building the 183 North Mobility Project which will include:

**Additional two  
express lanes  
in each  
direction**

**Additional  
collector  
distributor to the  
southbound  
MoPac frontage  
road**

**High-tech traffic  
monitoring system  
for improved  
traffic management  
and safety,  
emergency response**

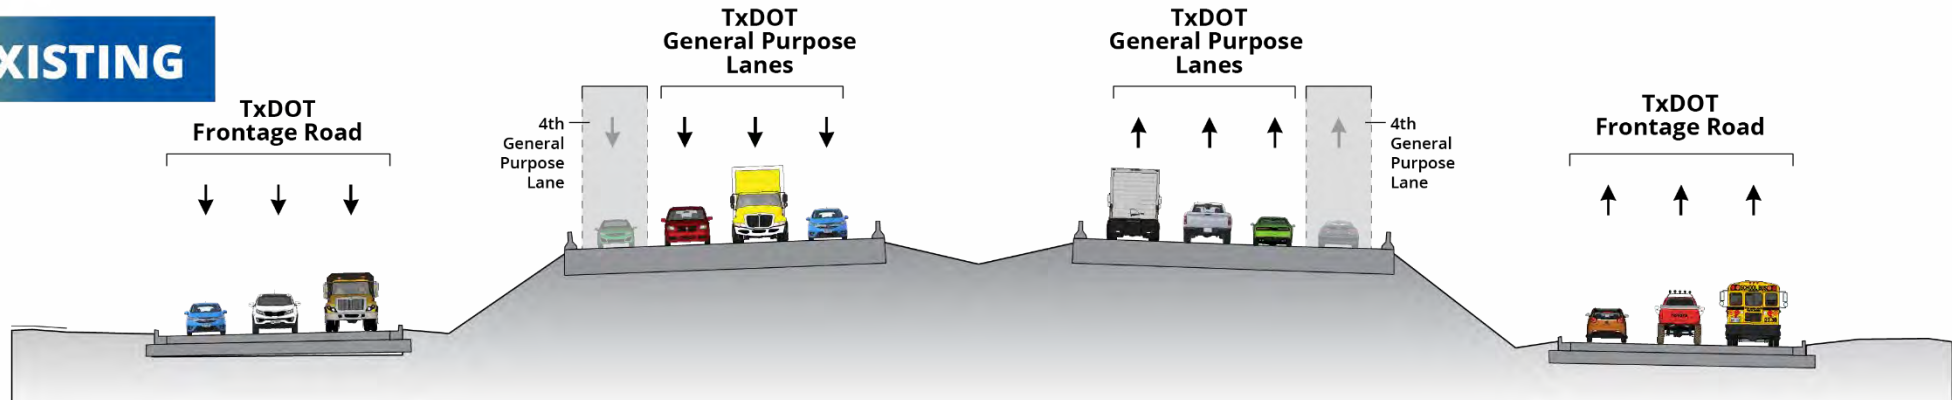

**Creating a direct  
connection from  
MoPac via new  
express lanes**

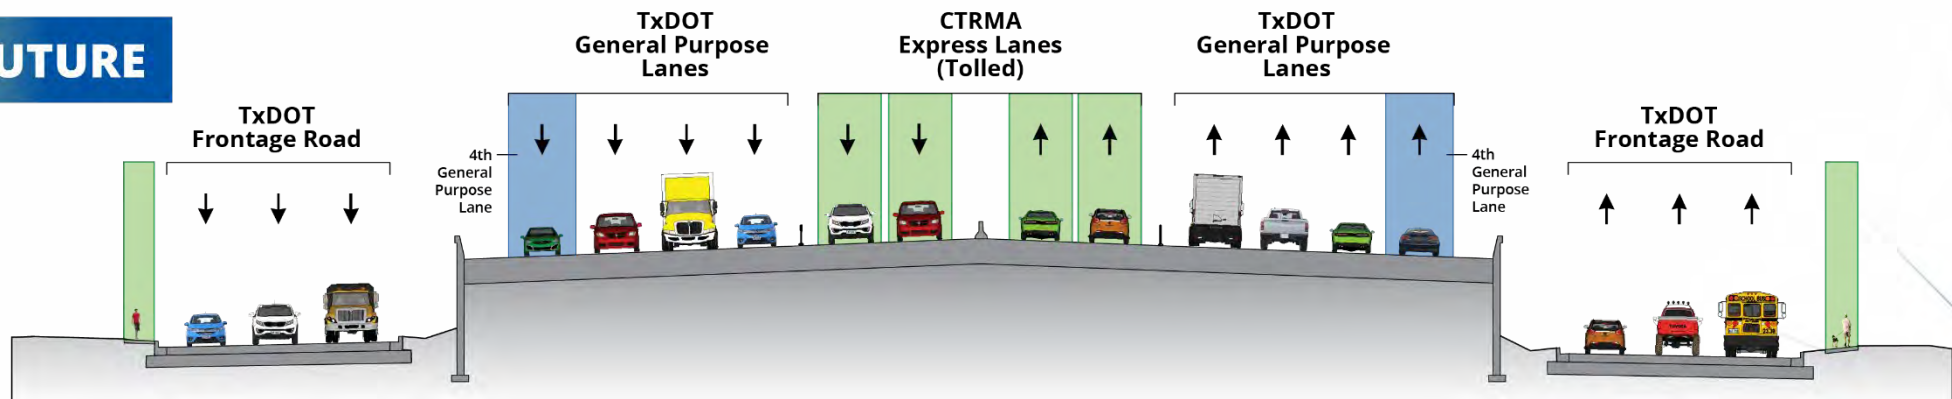

## EXISTING

## LEGEND

- ↑ Northbound Lane
- ↓ Southbound Lane
- ⬜ Discontinuous Lane
- ⬆ Lane/Sidewalk Added
- ⬆ Continuous Lane Added

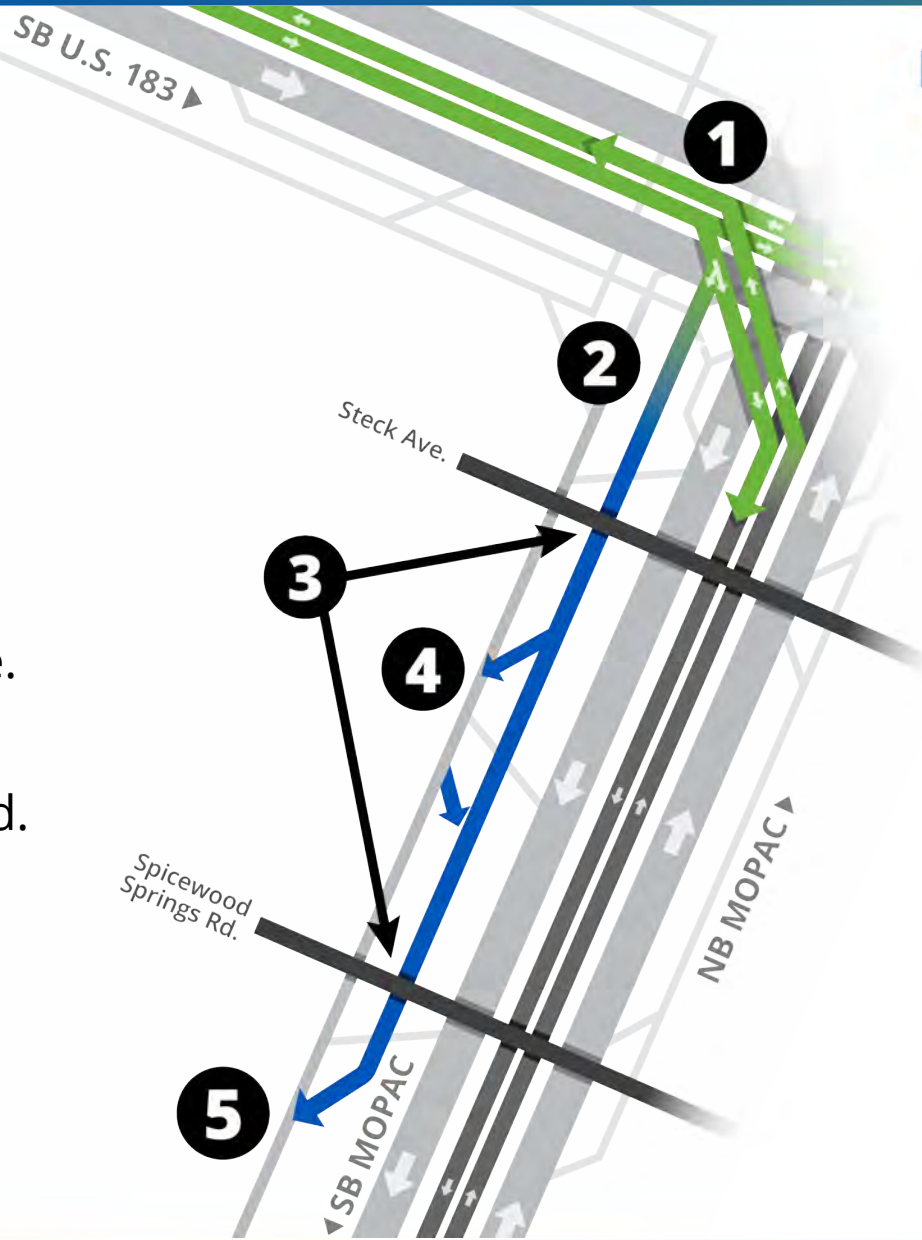

## FUTURE

- 1** Direct Connection to MoPac Express Lane
- 2** Collector-Distributor road from 183 Express Lanes
- 3** Signal bypasses at Steck Ave. and Spicewood Springs Rd.
- 4** Exit to Spicewood Springs Rd.
- 5** Exit north of Far West Blvd.

Not to scale. Illustration details have been exaggerated for clarity.

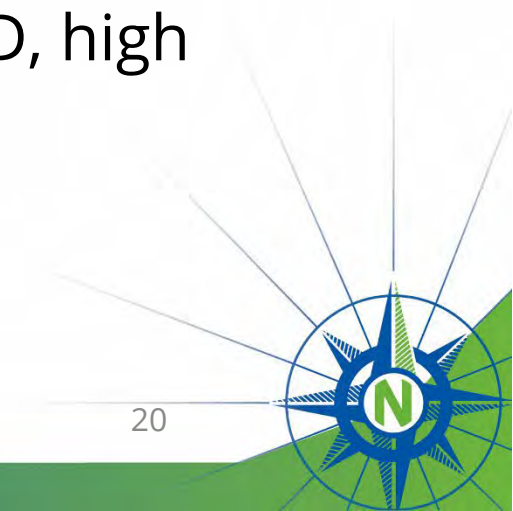

## LEGEND

- New 183 North Collector-Distributor
- New 183 North Express Lanes
- Existing MoPac Express Lane
- Existing Mainlanes
- Existing Frontage Road

- Increased **mobility** in corridor
- Improved **response times** for emergency vehicles
- **Safe connectivity for pedestrians** throughout the corridor through continuous, ADA compliant sidewalks
- Connected **bicycle lanes at specific intersections** throughout the corridor
- **Better visibility** through upgrades to 568 lights with LED, high mast lighting – increases safety
- Utilizing Next Generation Concrete Surface for an **improved roadway surface**

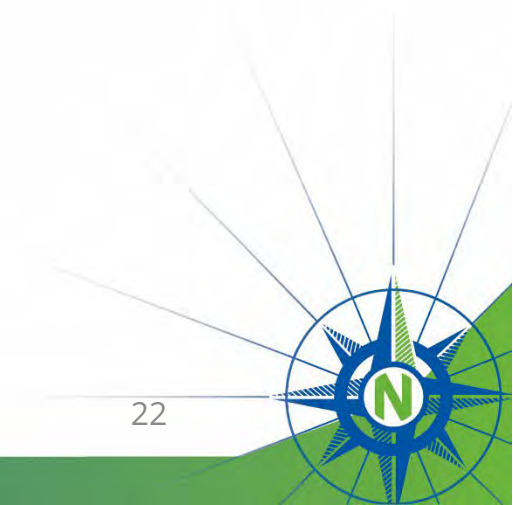

# PROJECT SCHEDULE

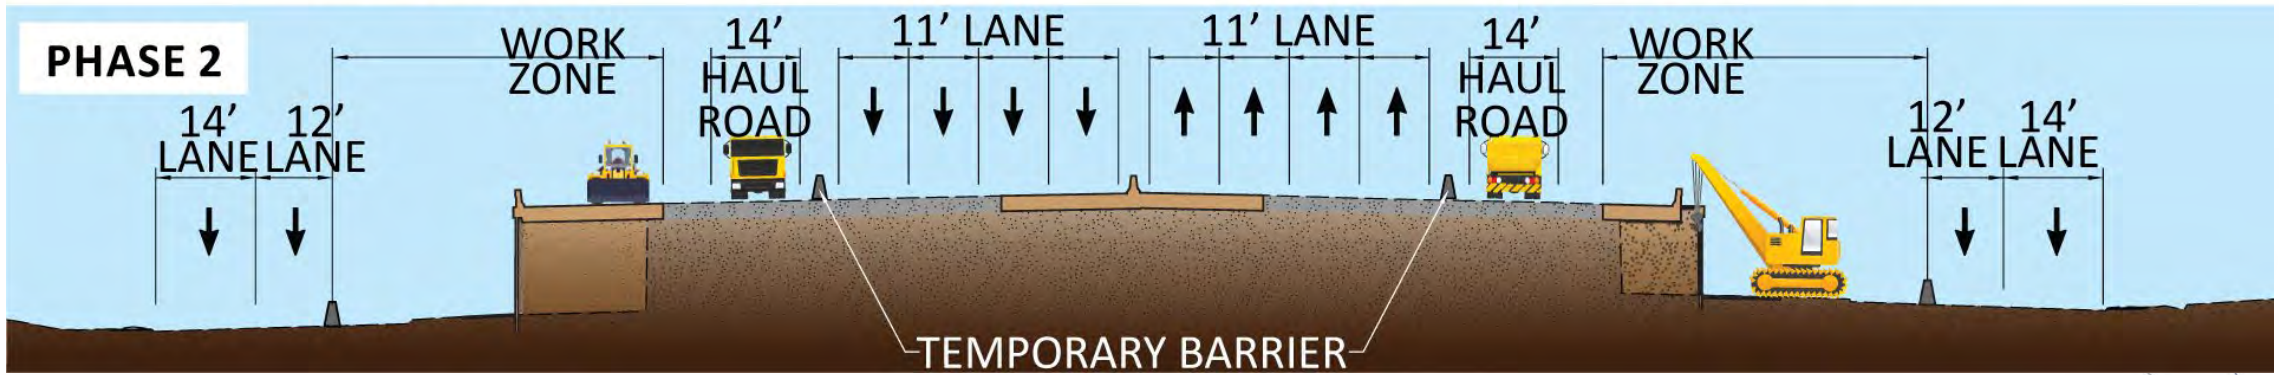

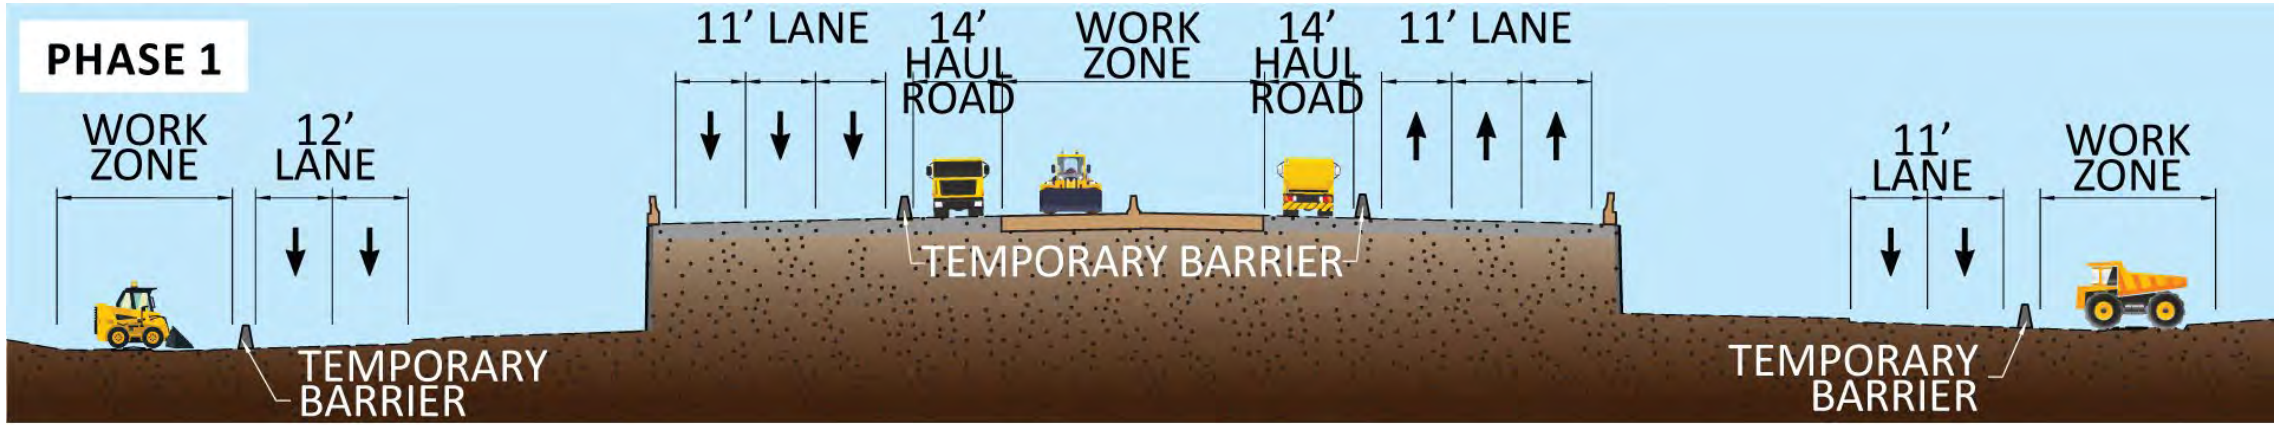

GREAT HILLS  
CONSTRUCTORS

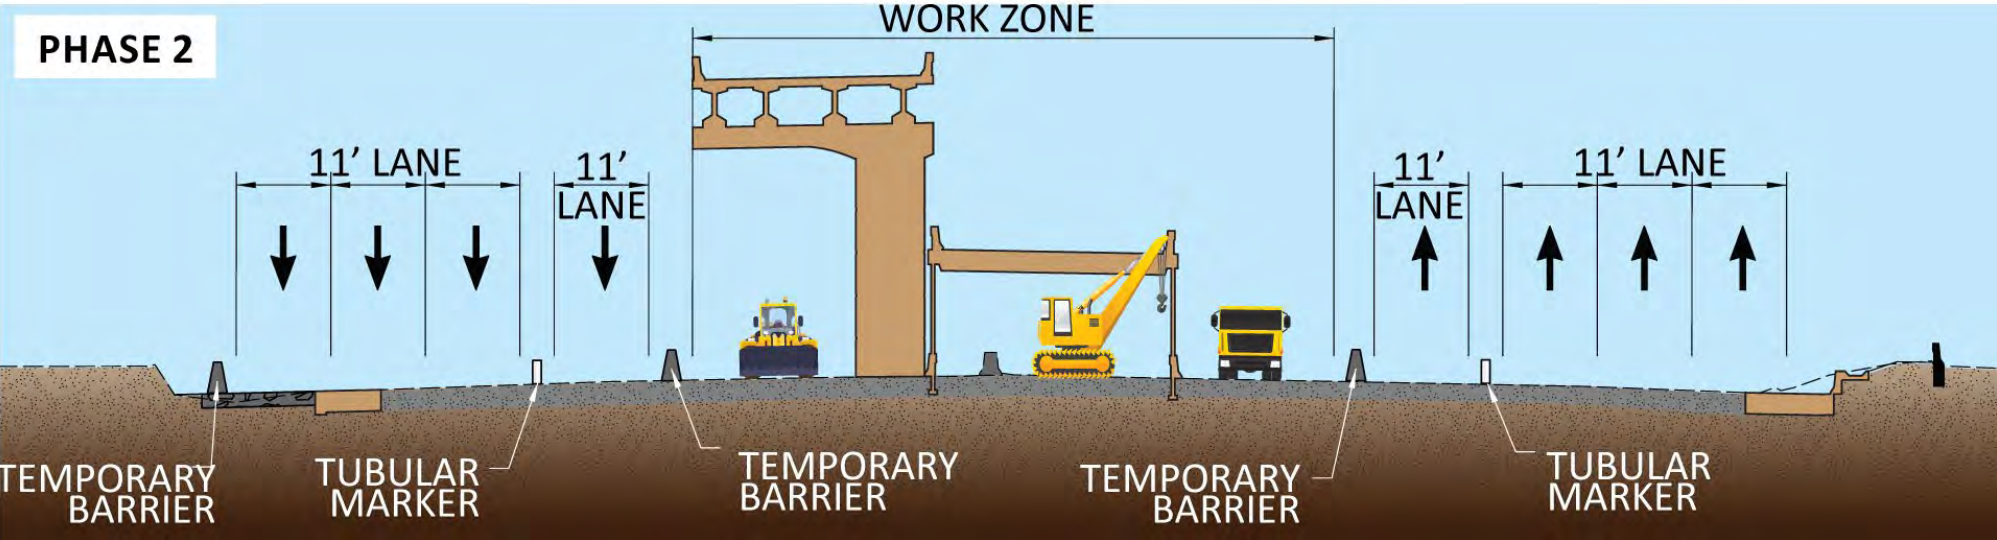

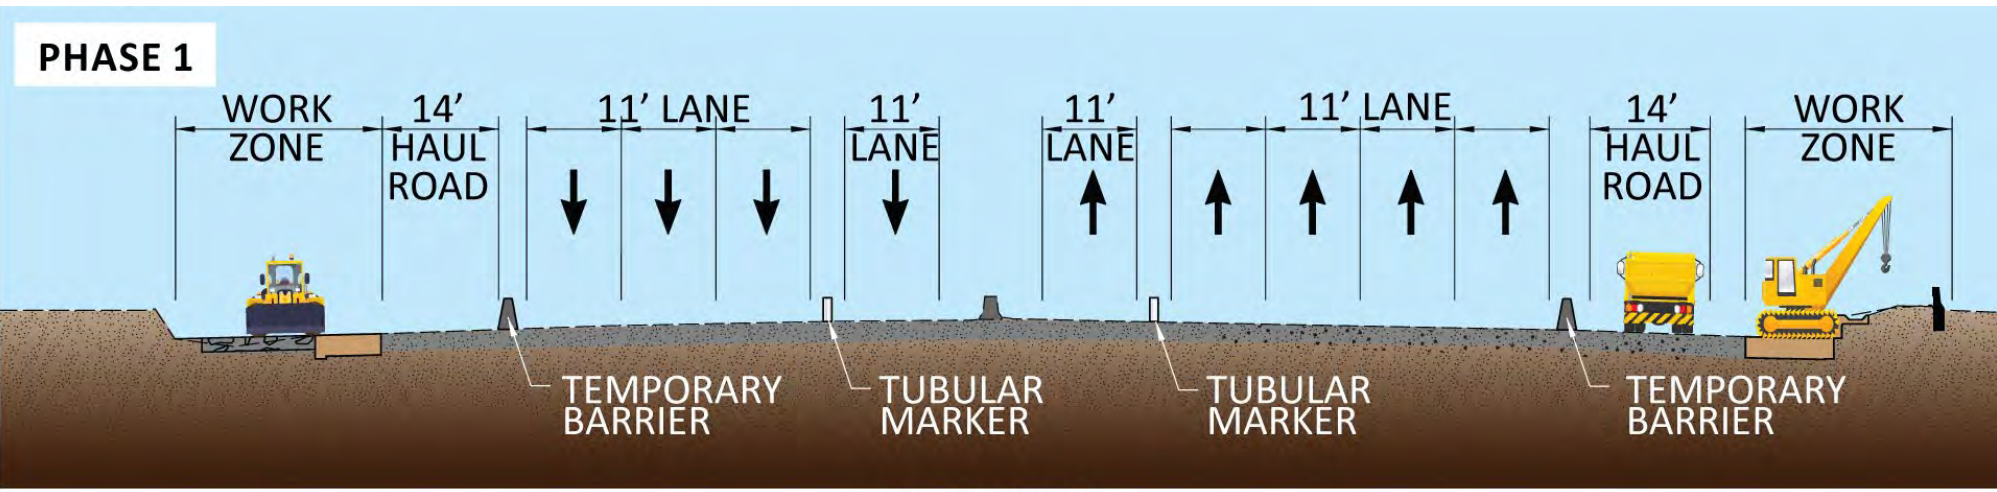

***WE ARE HERE!***

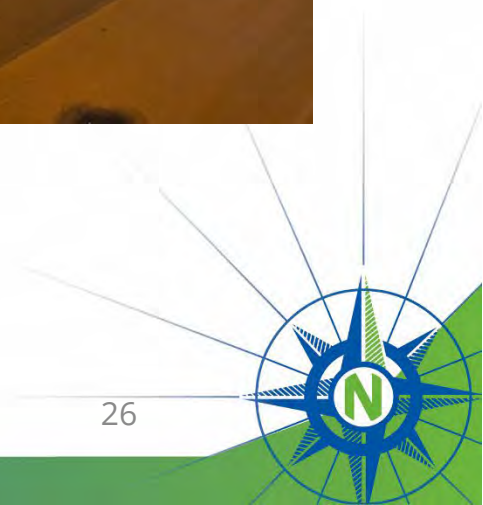

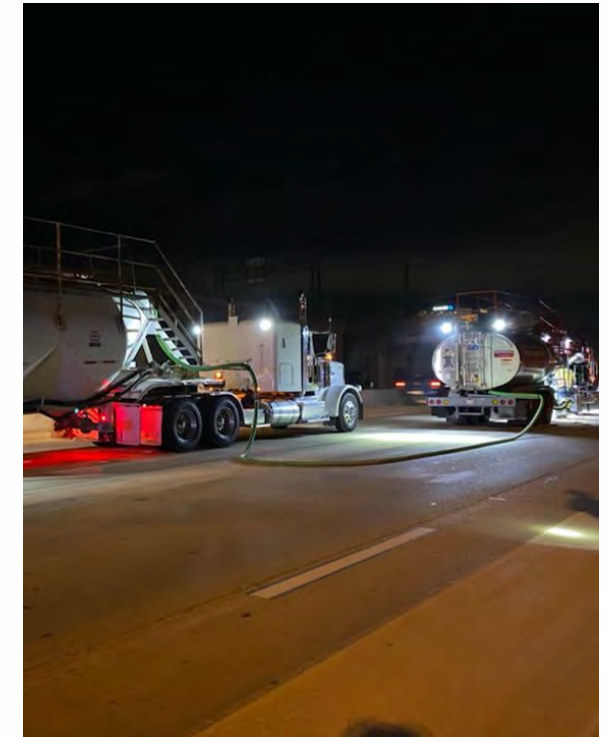

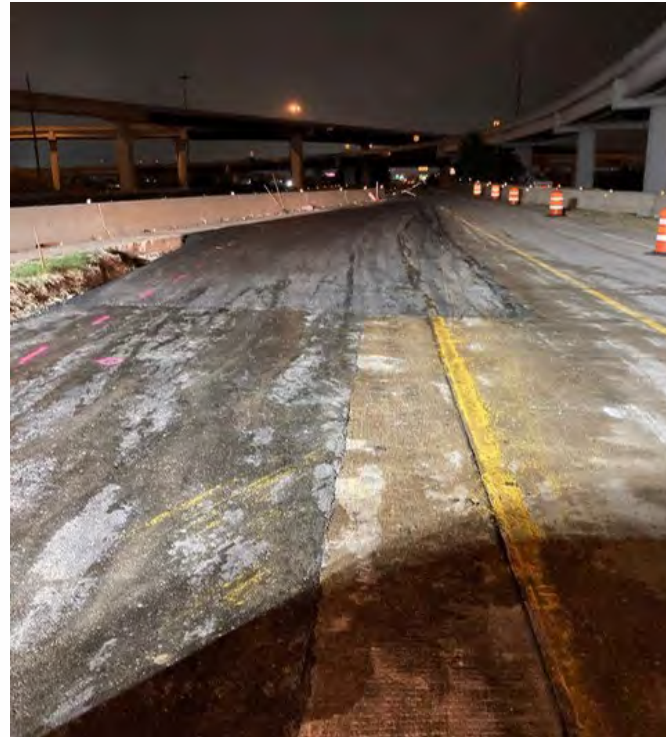

# PROJECT ACCOMPLISHMENTS IN 2022

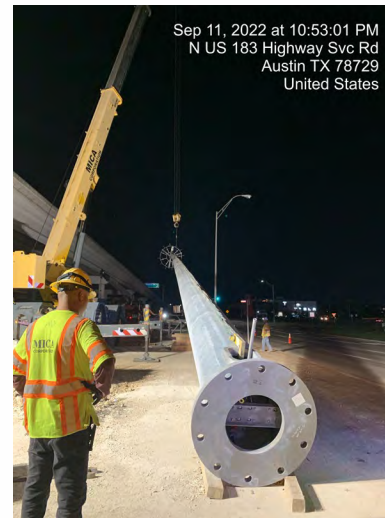

***As of January 2023, the project is approximately 25% complete.***

Phase 1 of Next Generation Concrete Surfacing neared completion

Installation of new  
High Mast Lighting  
for driver safety

Began construction of new sidewalks and driveways along the corridor

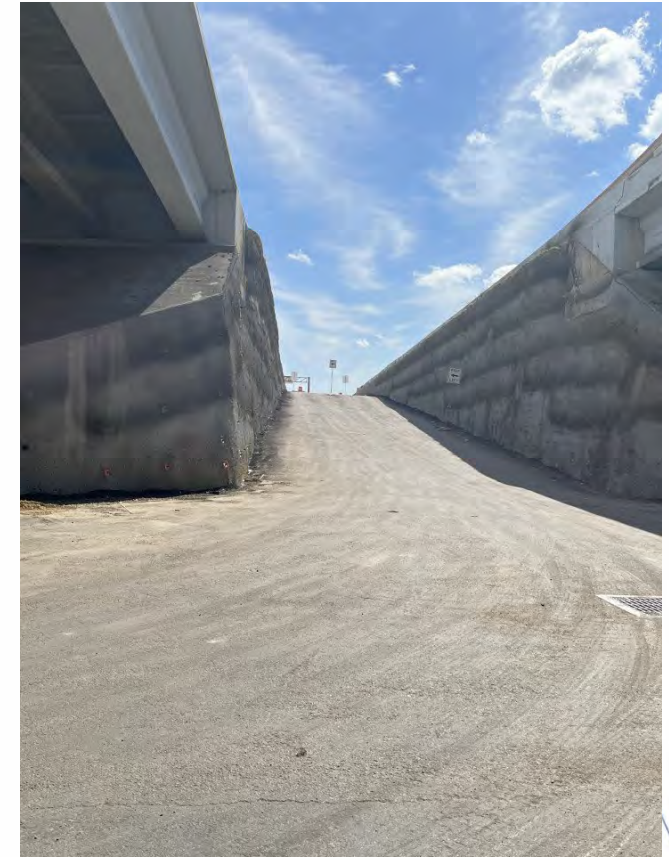

Concrete batch plant erected close to project that will support daily concrete paving operations

Constructed strategic project access points from U-Turn lanes at Great Hills Trail, Oak Knoll, and RM 620

Center median excavation and drainage installation

Began drill shafts, and bridge columns and caps for bridge widenings and direct connector structure

# OUTREACH IN 2022

# Outreach Project Manager

Nicole Hisle  
Great Hills Constructors

We prioritize customer **satisfaction, transparency and trust.**

We are committed to **being a partner in the community** and working proactively with commuters and local residents.

**We're with you every step of the way.**

# WHAT'S NEXT?

**183**  
**NORTH**

Work to begin on direct connector and collector-distributor road improvements at MoPac

Advancing belowground and aboveground components of bridge work (columns and caps, bridge decks), bridge widenings and direct connector structure

New drainage and wall construction to begin between frontage roads and mainlanes

Subgrade work and concrete paving in center median pavement

Installation of ITS communications throughout corridor

## WE'LL SEE YOU OUT IN THE COMMUNITY!
